

Product Information: Rev 1A, Issue Jul 2015

**Beginning from July 2015 Rantelon offers service of antenna measurements. Especially equipped anechoic chamber built in our factory gives possibility to do measurements accurately and quickly.**

### KEY FEATURES

- Antenna gain measurements
- Antenna pattern measurements
- Simple and quick
- Wide-band solution

### APPLICATION AREAS

- Antenna measurements
- MIMO
- LTE
- 5G

### TECHNICAL SPECIFICATIONS\*

Parameter	Specification
Type	Anechoic chamber-link
Frequency range	200MHz up to 10GHz
Measurements	Antenna pattern Antenna gain Front-to-Back ratio Return loss Efficiency
Power level	Low
Measured antenna dimensions	1000x1000x1000mm

\* Ask Rantelon for other parameters.

Rantelon reserves the right to change the specification without notice.
