Omni-directional antenna for TETRA390

TOA-041-50N is reliable omni-directional antenna with 50Ω N-female input.

Key features:

- Compact and reliable
- Can be used in outdoor conditions
- Commonly used 50Ω impedance

Application areas:

- TETRA

Technical specifications:

Type	Omni-directional antenna
Frequency range	380-395 MHz
Gain	2 dBi
Beam width (3dB, H/E-plane)	~360°/90°
VSWR	2:1
Polarization	Linear, vertical
Connector	50Ω N-female
Enclosure type	Outdoor, wall mounting
Dimensions (without cable and mounting)	500x20x20mm
Color	Grey
