

Reliable compact multi-band RF indicator

Indicator device is designed to indicate RF electromagnetic field presence and strength generated by VHF/UHF Jammer.

Features:

- VHF/UHF frequency coverage
- Wideband antenna
- Sound indication for field strength
- Easy to operate
 - Switch Band indication ON/OFF
 - LED indication for field presence
 - LED indication for field strength
 - Sound indication for field strength
- Integrated 3x AA size Battery-pack
- 30h operation without charging battery
- Field programmable
- Upgradable
- Customized solution upon request
 - Frequency range
 - Antenna type
 - Case mechanics

Applications:

- RF field detection
- RF field strength rating

Specifications:

DC voltage supply	+3,3-3,75Vdc
Current consumption	60mA max
Antenna interface	F-female
Battery charging interface	Standard 2.1mm chassis connector
Data interface	RS-232
Case type	Aluminium case
Dimensions	60x165x35mm
Weight	0.36kg
