

# PORTABLE UHF JAMMER MJ-0308

## GENERAL DESCRIPTION

**MJ-0308** is a compact portable UHF jammer, that can transmit jamming signals at multiple bands. Device is battery powered and can be controlled locally or remotely.

## APPLICATIONS

- Hostile radio contact blocking
- Communication jammer
- IED jamming

## FEATURES

- Easy to use – no training required
- Portable, robust and durable housing
- Remote control available
- Fast switch-on time
- Low out-of-band emission
- In- and outdoor use

# PORTABLE UHF JAMMER MJ-0308

## Available bands and output power

Parameter	Value
Available bands	315 MHz, 434 MHz, 868 MHz *
Number of bands	3
Output power	Configurable, max 20 W each band

\* Ask us for other bands.

## Battery parameters

Parameter	Value
Battery type	Li-ion
Battery voltage	18...11 VDC
Battery capacity	6 Ah
Operating time at 10W power at +20°C	45 min
Operating time at full Tx power at +20°C (without external cooling)	25 min (temperature cutoff)
Other battery options available on request	

## Remote control parameters

Parameter	Value
Battery	Standard 9V
Operating range	Up to 150 m (line of sight)
Operating time	5 h (transmitting every second)

## Physical specification

Parameter	Value
Dimensions (WxDxH) (Without battery)	300x200x59 mm
Operating temperature	-20...+45 °C
Operating humidity	20% ~ 90% RH non-condensing
